REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention concerns a data processing system for evaluation of treatment of a plurality of chest pain patients. The prior art, specifically Selker, discloses a risk management system for use with a chest pain patient, but is silent as to simultaneous evaluation of the treatment of more than one chest pain patient. Moreover, the prior art fails to disclose a system that evaluates chest pain treatment, with which the present invention is concerned. It merely deals with modalities for effecting and managing immediate chest pain treatment, and not necessarily the evaluation of post-treatment information. Accordingly, the present invention distinguishes over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ryan Carter whose telephone number is (703) 308-2990.
